Remote Controls

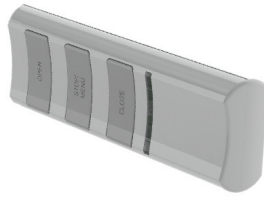

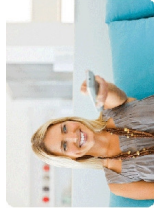

TechHome 700 Remote Control Series

TH700

1 Channel Remote Control

Controls 1 Device
Magnetic Back & Storage Cradle
Customisable Buttons, Re-Programmed Labels
UL/FCC/CE/C Tick Approval
IP51 Rating, 12V Battery
433MHz, 2 way Zigbee Option

TH701

3-6 Channel Remote Control

Controls up to 6 Devices
Magnetic Back & Storage Cradle
Customisable Buttons, Re-Programmed Labels
UL/FCC/CE/C Tick Approval
IP51 Rating, 12V Battery
433MHz, 2 way Zigbee Option

TH702

LCD Remote Control

Multi Channel, Controls up to 15 Devices
Backlit LCD Display
Magnetic Back & Storage Cradle
Re-Programmed Labels, Customised Labels
UL/FCC/CE/C Tick Approval
IP51 Rating, 12V Battery
433MHz, 2 way Zigbee Option

TH703

Wall Remote Control

Wireless, Wall Mounted
Controls 3-6 Channels
Programmed Label, Customised Labels
UL/FCC/CE/C Tick Approval
IP51 Rating
433MHz, 2 way Zigbee Option

TechHome's Remote Controls

TechHome's remotes are versatile and highly customisable. Options include re-programming screen labels for easy identification, and custom printed button labels and company logo. The remotes are ideal for controlling any electrical device in the home, office or factory including gates, doors, shutters, blinds, awnings, pool and irrigation pumps, air conditioning, fans, indoor and outdoor lighting. In fact, if it can be turned off and on, you can control it with a TechHome remote and receiver. TechHome's remotes are Australian designed and manufactured. The remote controls utilise the 433MHz range and has the capability to be adapted to Zigbee and other frequencies. TechHome's remote and receiver can be used as a stand-alone product, integrated with other systems or included into a TechHome customised control solution.

TechHome Motor Controllers

TH321

Home Automation Interface

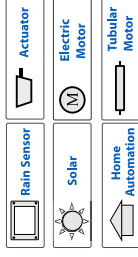

Home Automation Interface
RS232/485 Inputs/Output
Low Volt 12/24 Vdc
1 or 2 High Current Output
UL/FCC/CE/C Tick Approval
433MHz & Zigbee Option
Switching Voltage up to 240 Vdc, IP55 Rating

TH434

Actuator Motor Controller

Controls any Actuator Type Motor
Rain Sensor Input
Low Volt 12/24 Vdc
Interfaces with RS232
Controls 1 or 2 Motors
UL/FCC/CE/C Tick Approval
433MHz & Zigbee Option, IP Rating 55

TH307

Opening Roof/Shutter/Blind/Pump Motor Controller

Suitable for Opening Roofs, Shutters, Blinds, Pumps
Motor Limit Detection
Rain Sensor Option
Auto Close, Latching & Non Latching
12Vdc, 916 MHz
C Tick Approval

TH372

4 Channel Opening Roof Controller

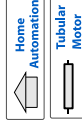

Controls up to 4 motors simultaneously
Soft Start, Current Delection
Limit Position Delection
Over Current Protection
Variable Speed Drive
Rain Sensor Input
Daisy Chain Option
12-48Vdc @ 25A

TH704

TechHome Receiver

UL/FCC/CE/C Tick Approval
100/230V 10A, 12V 10A
433MHz, 2.4GHz
IP51 Rating
2 way Zigbee Option
